This is a detailed cadastral map of the Municipality of Lamon, Italy, illustrating environmental constraints and land use planning. The map is oriented with North at the top. Key features include:

- Environmental Constraints (Vincolo Ambientale):** Indicated by light blue wavy lines, these areas are primarily located along the Adige river and its tributaries, including the Valle del Consolo, Valle della Lavina, and Valle della Senna.
- Environmental Interest (Interesse Ambientale):** Shown as green wavy lines, these areas are concentrated in the central and southern parts of the municipality, particularly around the Adige river and the area near the town of Lamon.
- SIC Zones (Zona SIC):** Represented by grey shaded areas, these zones cover large portions of the northern and central parts of the municipality, including the area around the town of Lamon and the area near the town of Sarnon.
- 220 KV Lines (Linea 220 KV):** Indicated by red lines, these lines run horizontally across the middle of the municipality, following the course of the Adige river.
- Geographical Context:** The map shows the municipality's location relative to the Province of Trento (Provincia Autonoma di Trento) to the north and the Province of Udine to the east. The Adige river (Fiume Adige) flows through the southern part of the municipality.
- Topographical Features:** The map includes numerous place names, such as Sarnon, Lamon, and Sarnon, and identifies various geographical features like the Valle del Consolo, Valle della Lavina, and Valle della Senna.
