- The map illustrates the landslide risk (Rischio Frane) in the Lamon area. The town of Lamon is centrally located, with the Arsie' river flowing through it. The map is color-coded to show different levels of landslide risk: R1 (moderate), R2 (medium), R3 (elevated), and R4 (very elevated). The map also shows the locations of various emergency areas (Arele Emergenza) and strategic buildings (Edifici Strategici). The map is titled 'RISCHIO FRANE' and includes a scale bar (0 to 1 km) and a legend.
